### What does a Case Manager in the At Home Program do?

Our Case Managers will assist you in the process of getting an apartment; then continue working with you on goals that you have set. It will be different for everyone, depending on what you want or need.

### What are the conditions of staying in the program?

Meeting with your case manager at least once a week, and participating in the research by meeting with the research team once every three months.

### Are there any other requirements such as treatment or work?

No, there are no other mandatory requirements. We work with you on YOUR plan, not ours.

### Will I get to choose where I live?

Yes. You will be able to live in an apartment that is comfortable to you and that you want to live in, in a community of your choice

### How will I furnish my place?

We wouldn't help you get a place and not furniture! We will assist you in obtaining the furniture you need.

### What if I get evicted?

Your case manager will work with you to resolve tenancy issues. If you do lose your housing we will work with you to find a new place, and trouble shoot what happened.

### What are the hours?

The case managers have rotating hours, but there are case managers working 7 days a week, from 8 am—8 pm.

## What now?

Call the number on this pamphlet or the number you received from the research team. We will set up an appointment and go from there!
